

STOON PRESS KIT

BIO

Stoon is one of the most established and seasoned DJs out of the highly-competitive New York market. His passion for music started at the early age of 14, after moving to the United States from Casablanca, Morocco. He has spent over 15 years mastering his craft in the industry and his appreciation for different genres never goes unnoticed with the way that he seamlessly blends music, curates his playlists, and engages audiences from all walks of life.

His rapidly growing following, international shows and supporting performances with world-renowned DJs, showcase his talent and ability to organically connect with markets worldwide. Every performance is custom-curated. From stadiums to chic lounges, Stoon guarantees every audience a unique and unforgettable musical experience.

In 2019, Stoon decided to pay it forward, and launched a brand called 'Stoon & Friends' which opens the doors to up-and-coming DJs to perform at reputable venues around the world. His desire and initiative to help others kick-start their own DJ careers has cultivated a massive community of like-minded individuals and respect for the path that Stoon has paved for those pursuing this line of work. Apart from 'Stoon & Friends', he has mentored students one-on-one over the years, who went on to execute successful DJ careers of their own.

In 2023, Stoon made his main stage debut at Electric Zoo Festival alongside many of the biggest names in the music industry. Forever aligning with a timeless music style, Stoon's evolution as a musical artist is never ending.

"There is a time and a place for every song ever made".
